

ValuStar™ 60 mm Wall/Roof Mount

The ASC Signal Corporation ValuStar™ 60 mm wall/roof mount is designed to compliment our ValuStar™ line of offset antennas. This versatile mount has undergone vigorous mechanical testing to ensure the customer's performance requirements are met.

The mount can be secured to a flat roof, pitched roof or a vertical wall. All mount components are pre-galvanized and powder painted to match the ValuStar™ brand of antennas. In addition, the hardware is plated and polymer coated for excellent corrosion resistance.

- 60 mm outside diameter pipe
- 38.5 cm (15.2 in) clearance form wall to mast centerline
- High wind capabilities for apertures up to 1.2 meter
- 80 km/h (50 mph) operational wind speed capability
- 200 km/h (125 mph) survival wind speed capability
- All materials comply with EU directive No. 2002/95/EC (RoHS).
